Children's Outcomes and Performance 2022-2023

As a school with high mobility which receives ongoing intakes of children at various points throughout the year, of all different ages this continues to be a concern and challenge. The main challenge being that some of the children that join us on Key Stage Two often do not access a full curriculum depending on the year they enter. However these children, do still count in our percentages even though they are not able to access the curriculum or the expected tests.
